

# Exhibit E

Name: TODD KOZEL  
Address: [REDACTED]  
NEW YORK, NY 10011

Date of Visit: Dec 1 2021  
MRN: [REDACTED]  
DOB: [REDACTED]

December 1, 2021

To Whom it May Concern:

Mr. Todd Kozel is currently under my medical care and has been a patient of mine since 2019.

In November 2020 Mr. Kozel was noted to have an enlarged left submandibular mass which was subsequently biopsied and found to be pharyngeal squamous cell carcinoma. He was referred to ENT for evaluation, however because of metastatic disease documented on MRI and CT scan he was not a surgical candidate. In December 2020 was treated with radiation and aggressive chemotherapy. His chemotherapeutic and radiation therapy was complicated by recurrent bouts of mucositis and oral candidiasis.

Since completing head and neck radiation therapy Mr. Kozel continues to suffer from [REDACTED]

Please contact me with any questions.

Sincerely,

Domenick Acquista MD, MBA  
Northwell Health Physician Partners  
Department of Medicine  
Associate Professor of Medicine
